When the Yearbook Staff realized that the senior class this year was the Seventieth class to graduate from Middletown High School we decided to make this an anniversary number and dedicate our Yearbook to the oldest living graduate, Mr. Frank Smith. We decided also to include the names and addresses of all past graduates.

It is our hope that this will not only be enjoyed by this class but by past graduating classes too. We would like to thank all of those who have assisted us in obtaining the names and addresses of past graduates.

The co-editors wish especially to express our thanks to the staff, the sponsor, and all those who have helped us obtain the information we needed for this book.

A HISTORY OF MIDDLETOWN HIGH SCHOOL

Soon after Middletown was incorporated in 1840, a two-story, four-room frame school building was erected on the grounds now occupied by the Central School Building. There was no high school until 1888 when, on December 30, the new Central School officially opened for classes. The original building had been sold and moved from the site to make room for the new brick school which was built for just under \$12,000. Prior to 1888, young people desiring education beyond the grammar-school level had to go elsewhere--the most usual place being Spiceland Academy.

At first the new school offered a three-year course, but in 1893 it was commissioned as a four-year high school. This accounts for the fact that there were no graduates that year.

For many years the faculty consisted of a superintendent, a principal and two teachers or "assistants." William Graves, class of '98, who later taught in Middletown, recalls that the curriculum included beginning and advanced algebra, plane and solid geometry, American and English literature, Composition, rhetoric, physical geography, American, and world history, civics, and three or four years of Latin. It was Mr. Graves who in 1903 as the English teacher established and sponsored the school paper, the HEADLIGHT, with Chester Lambert, '06, serving as student editor and printer.

Until 1908 the pupils recited in a "Laboratory" in the basement, but in that year an addition was built which provided classroom and recitation facilities on the same floor as the assembly room. The class plays were presented at the Elliott Opera House and later at the Nickelo.

Extra-curricular activities seem to have been limited, but school calendars in the annuals mention box socials, Halloween parties, debating societies, and, of course, athletics. By 1913 Central had an eleven-piece orchestra which provided activity described by the editor as "wholesome, elevating, refining, pleasant, educative, and beneficial." For a number of years two "literary" societies, the PHILALOTHEANS and the ADELPHIANS seem to have provided friendly rivalry in debating contests. Each society apparently wooed the incoming freshmen and the students could join which ever group they wished. In 1914 a German club, the DEUTSCHE VEREIN, was formed.

By 1913 pressure was being brought upon the community to construct a separate high school. The annual of that year contains a plea for such a building which would allow for curriculum expansion, more and larger classrooms, laboratories, and new departments such as domestic arts and agriculture.

The need for a gymnasium also seemed urgent. Athletics began to play an important roll in school activity around 1904 when a baseball team was organized. In the fall of 1905 an athletic association was formed and the game of basketball was introduced. In addition to inter-class competition, the best players from all classes formed a school team which played high school teams from Muncie, Anderson, Lapel, and Connersville, in addition to the Anderson Knights of Columbus, and an Anderson team called the Jiu Jitsus.

The football team of 1911, described as "the best that ever represented our school," was undefeated, winning over Lapel, New Castle, Cambridge City, Fairmount Academy, and tying with Elwood. Middletown scored 147 points to their opponents' 53 that year. The football games were played at the Fairgrounds.

Basketball, up until 1912 or '13, was played in improvised gymnasiums. One such "gym" was the Sons of Veterans' Hall on Christian Ridge; another was Trovts' Blacksmith Shop; and still another was one of the rooms of the Ironwood School, which then stood on the site of the present high school. The latter building was moved to the southwest corner of Cottage and twelfth where it still stands. From 1913 until the new building was completed, all games seem to have been played out of doors.

The class of 1915 was the last one to graduate from the Central Building. On September 4 of that year, classes began in the new building with an enrollment of 150 and a faculty of six. Described as "a modern, up-to-date building . . . a monument to the builders and an honor to the community, "the new school contained the desired domestic science department, (complete with hot plates and one gas range), science department, a shop, and an auditorium (The room is large containing 600 seats . . . of red mahogany . . . comfortable in size and shape. The stage is large and well lighted and when a complete outfit of scenery has been supplied will equal that of many opera houses.") An assembly hall, a library, classroom facilities for grades 7-12, and a gymnasium (" . . . one of the best . . . in the state. The playing floor is large and is made of good maple . . . locker rooms are provided with shower baths. Here is also a large gallery on each side . . . that will accommodate about 400 people.") Constructed with ramps at the west end, the gym occasionally housed livestock at the Farmers' Institutes which were held there.

The same year saw an expansion in the music department with an orchestra again being formed as well as a boys' glee club.

Middletown was first represented in a sectional tourney in 1917 but failed to produce a sectional winner until 1929. In 1922 twenty-one teams competed at New Castle in a "district tournament." Middletown, at that time, scheduled New Castle in regular season play and, according to the annual, defeated New Castle in November of that year by a score of 2-0. The name "Cossacks" was first given to the basketball team in 1926. The name was thought up by Willis (Abe) Martin, class of '26, now deceased. In the yearbook of that year, under a calendar of events dated November third, the name was officially submitted as the new name for the team.

In 1918 the enrollment dropped to 75, probably because of the war. In 1918 a Bible Study Class was organized and met twice a week. By 1925 the faculty had increased to nine and in 1929 a commercial department was added. No startling changes were made in curriculum or athletics until 1939 when a new gymnasium was built east of the high school. This limestone structure seats about 1200 and at the time of its completion was one of the larger gyms in the area.

When the new gym was ready for use the old gym was made into an industrial arts department. The area above the shop was converted into a cafeteria which was put into use in October, 1949. And at the same time the last side of the first floor which had been used for industrial arts, was converted into a large classroom for the seventh grade. After a few years, seventh grade enrollment increased to the place where one room was insufficient, so the space was divided into two rooms.

Through the years by careful planning school officials have fitted the school plant to the needs of the ever-growing school enrollment. The last change, completed this year, was the conversion of the cherished auditorium into four classrooms, a band room, and a library.

What lies ahead? At this time it would seem that the next change will be a consolidation of the high school with neighboring schools, with new uses for the existing buildings.

Mrs. Bauserman is a new teacher at M.H.S. this year. She teaches typing, bookkeeping and business law. In addition to teaching, Mrs. Bauserman is the advisor to the newspaper staff, and when The Cossack is about to come out, her room is a beehive of activity. She is also Pep Club sponsor and cheerleader advisor. Those clever routines you enjoyed at the games were the result of her creative ability and careful training.

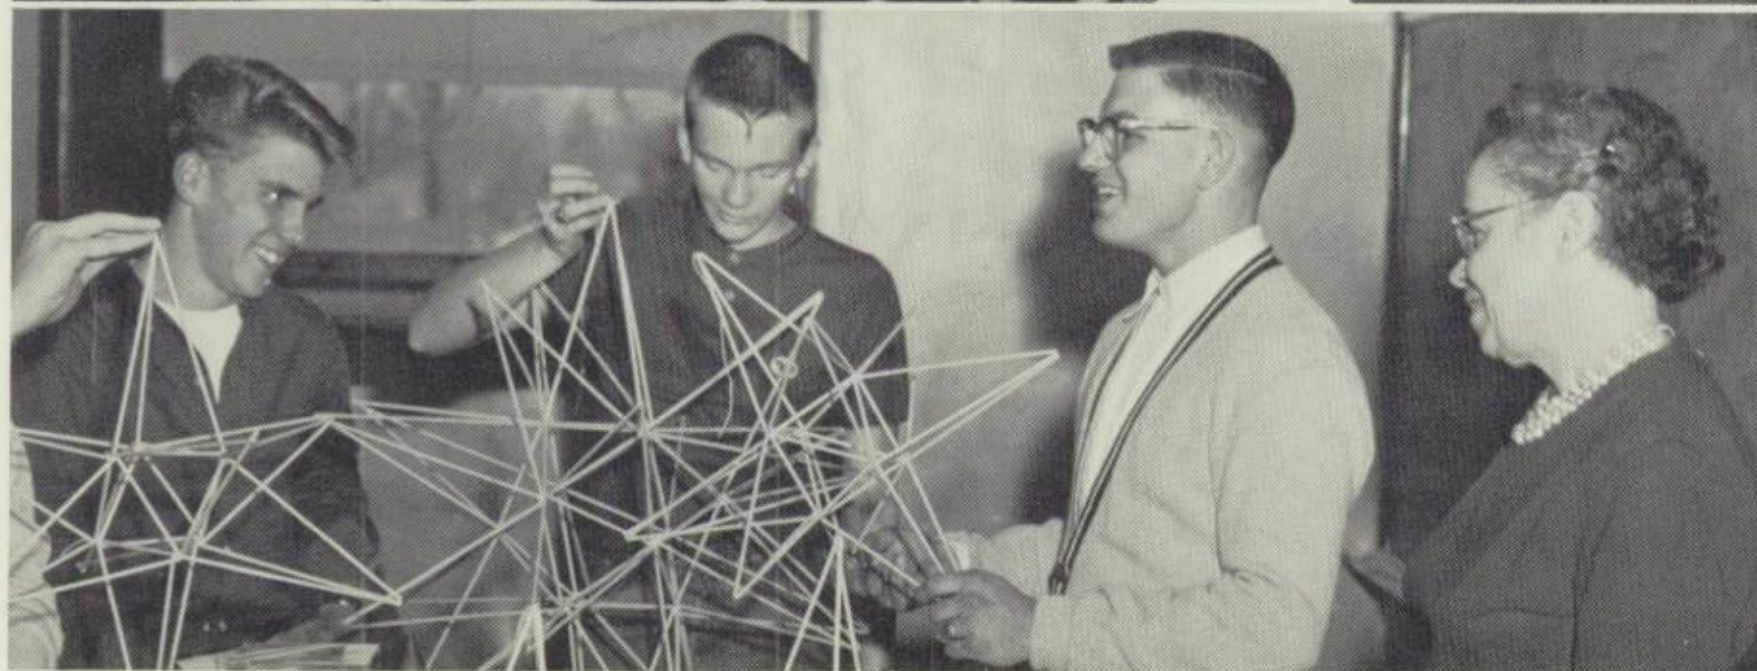

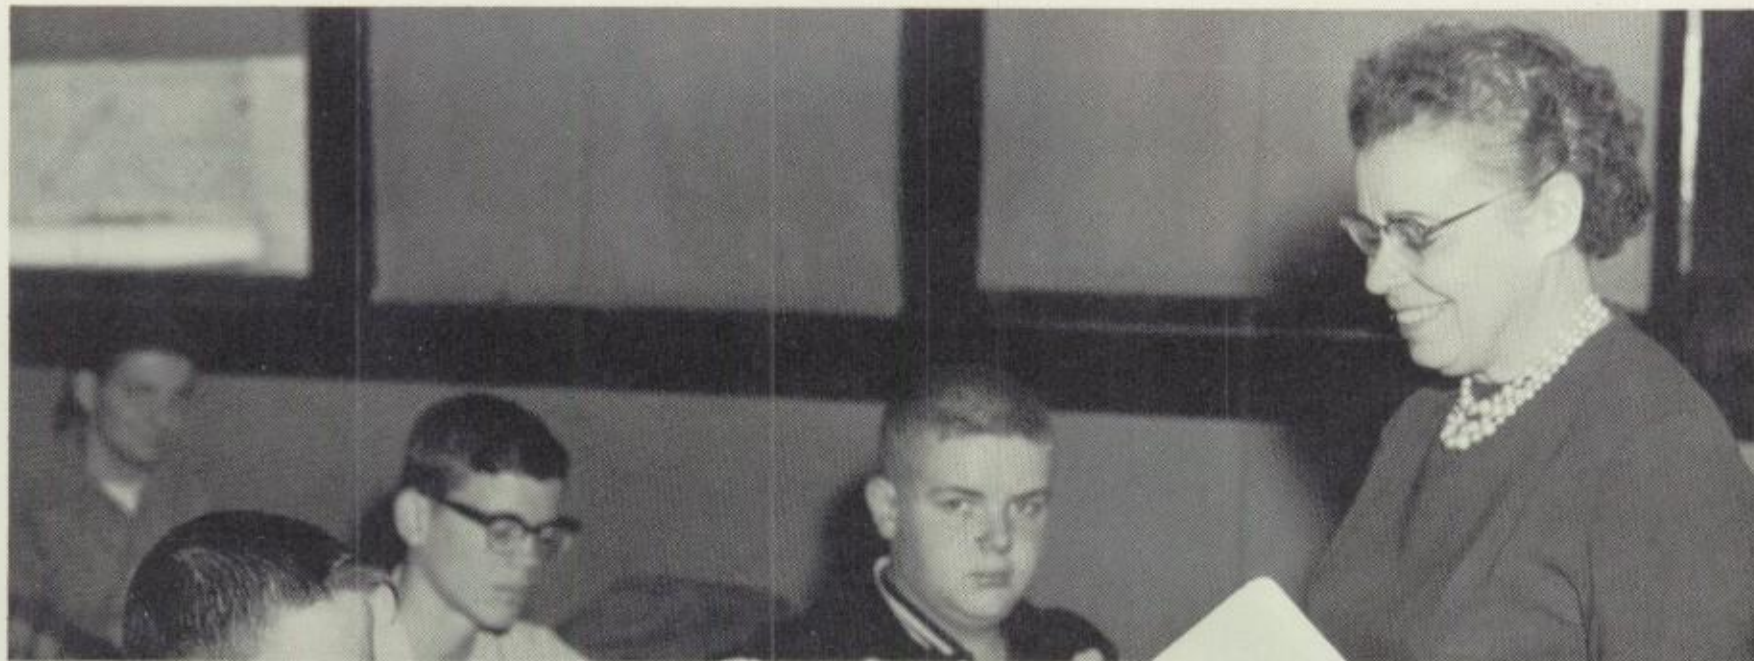

MRS. BAUSERMAN
B.S. Ball State Teachers' College.

MRS. SUMNERS
A.B. Depauw; M.A. Ball State
Teachers' College.

Mrs. Sumners is the high school mathematics teacher. To the freshmen she teaches algebra where the basic rules of mathematics are learned; to the sophomores interested in math she teaches plane geometry. In the bottom picture the photographer has found her teaching solid geometry to a class of juniors and seniors.

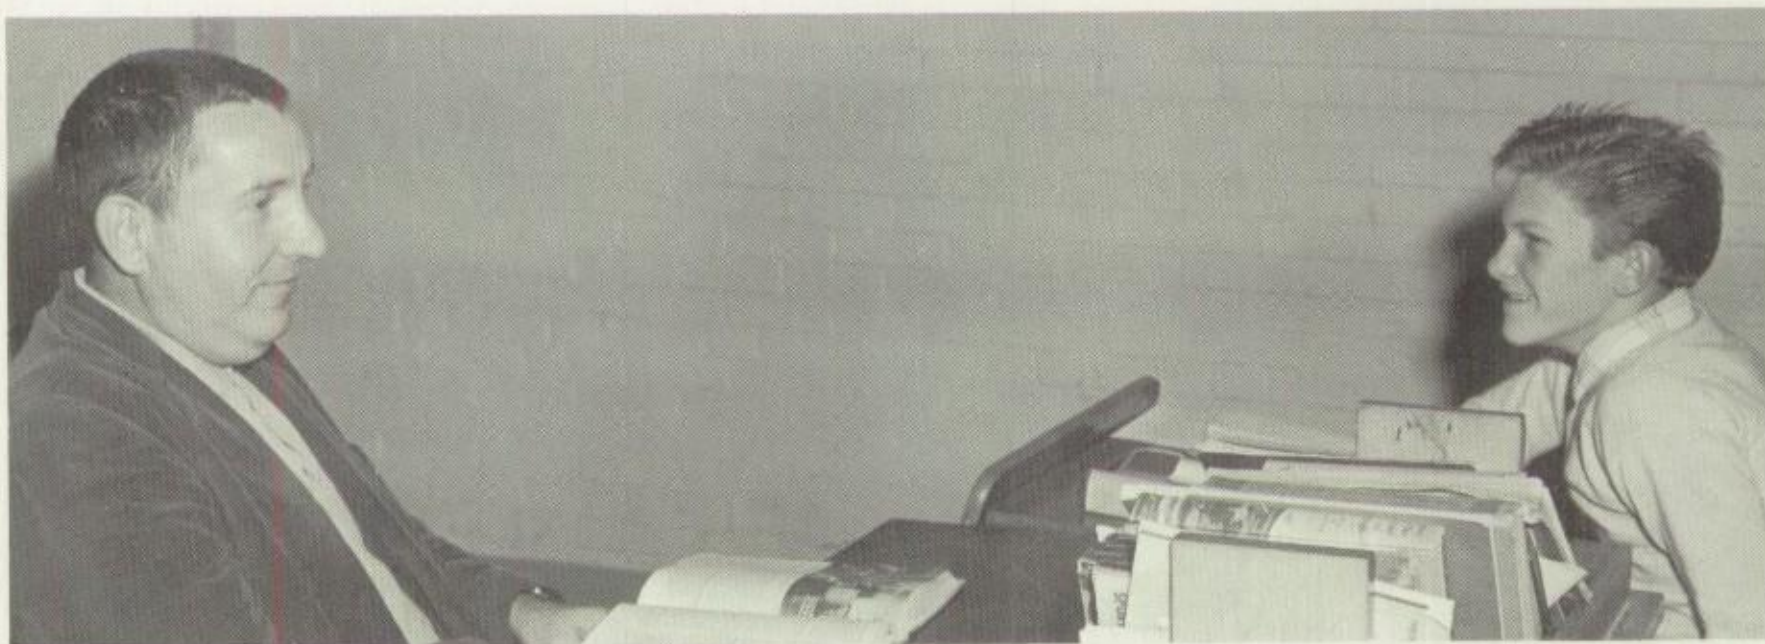

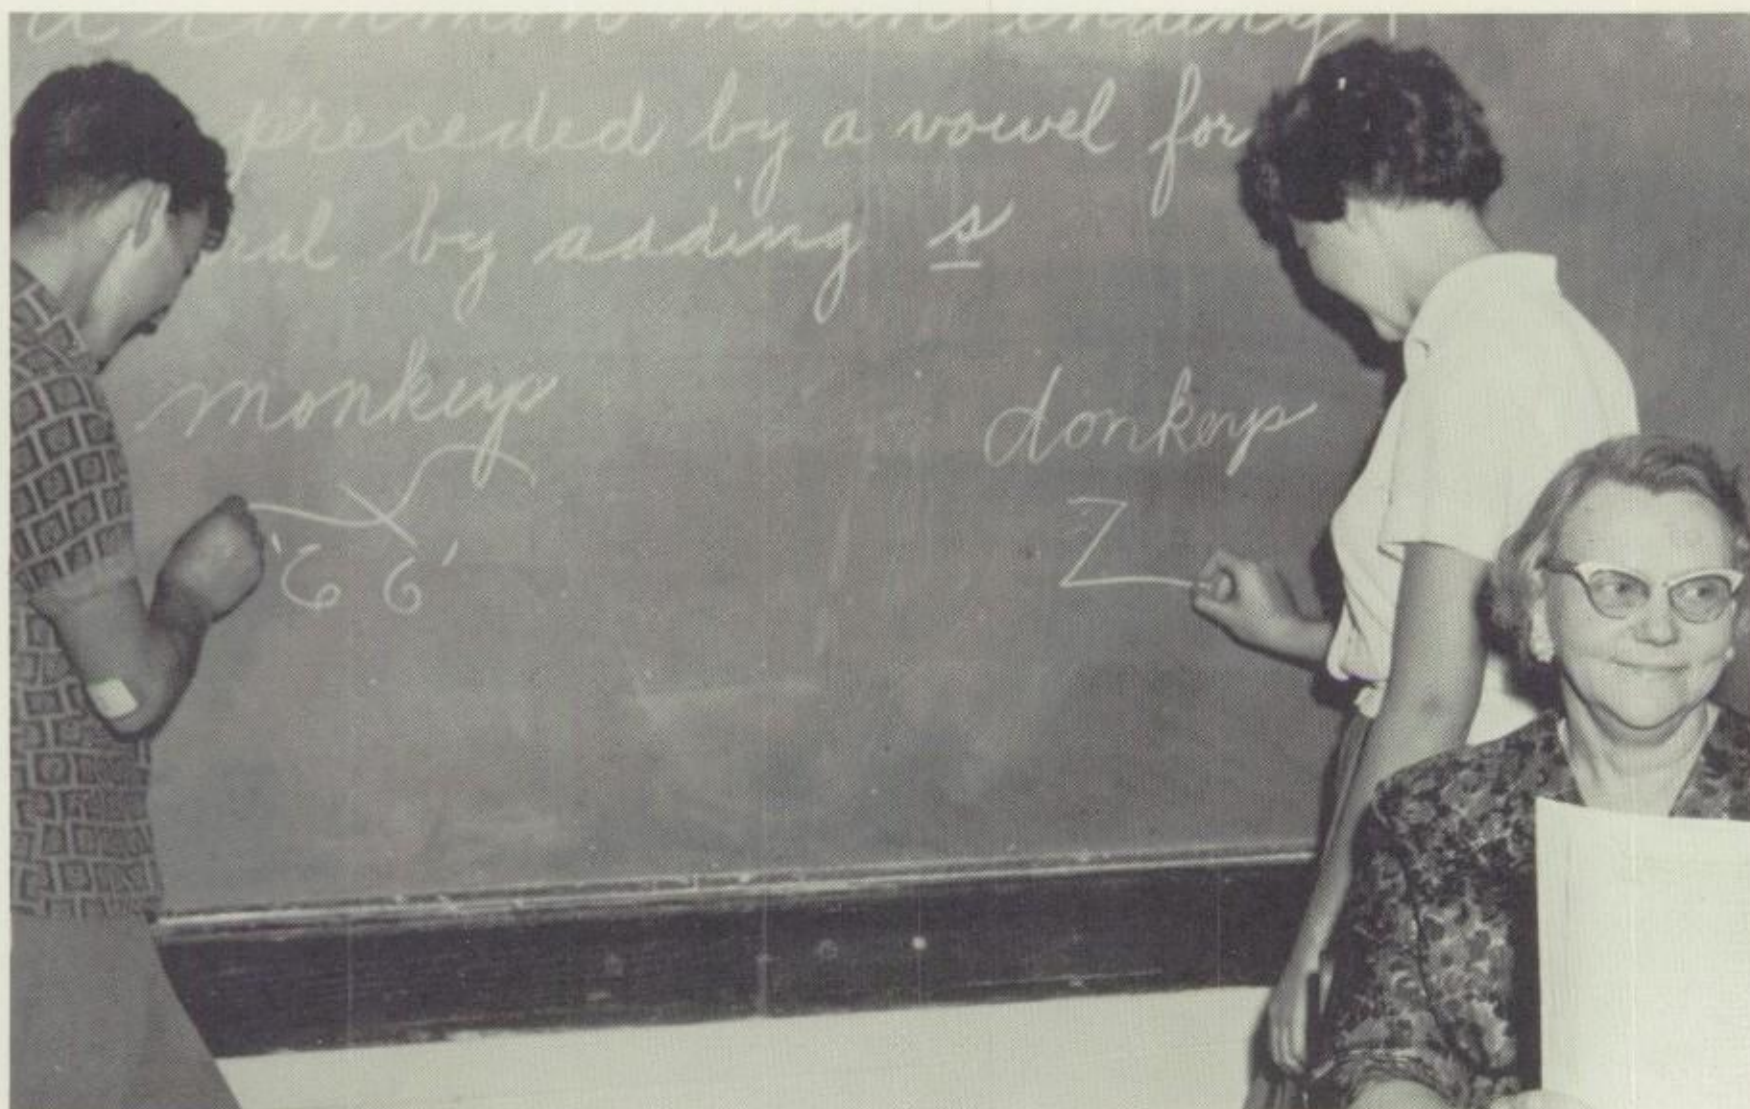

MR. GREEN
B.S. Ball State Teachers' College

Mr. Green is a teacher with widely diversified duties. He teaches eighth grade history, and coaches baseball, as well as second team basketball.

Many students get acquainted with Mr. Green when he teaches them to drive, for he is the brave man who quietly instructs untried, nervous drivers in the mysteries of driving, and makes it possible to receive that prized possession --a driver's license.

MRS. CLEVENGER
B.S. Ball State
Teachers' College

Mrs. Clevenger is the eighth grade sponsor who helps all newcomers become acquainted with the routine of the high school. For years she has held her classes in the basement, but with the addition of the new wing she has been awarded a sunny room on the first floor. Mrs. Clevenger teaches eighth grade English and arithmetic.

MR. MINNICK
B.S. Ball State, M.A.
Ball State Teachers'
College.

This year the title Guidance Director has been added to Mr. Minnick's name. As he has done for many years, he teaches government, United States history, psychology, and geography. He is a senior sponsor and helps the graduating class through all the trials of their last year in school.

MR. BAUSERMAN
B.S. Ball State Teachers' College

Mr. Bauserman divides his time between Central School and the high school. He teaches World history and speech, and coaches the junior and senior plays. In his spare (?) time he drives a school bus transporting Central students over to the high school for lunch.

MRS. BRADFORD
B.S. Ball State Teachers' College

Mrs. Bradford teaches two classes of high school art. She also teaches art in the grade schools from grade four through grade seven. To give variety to her teaching day, she teaches home economics to the seventh grade at Central School. The attractive signs on the classroom doors are the product of the talent found in Mrs. Bradford's classes.

MRS. JAMESON
B.S. Ball State
Teachers' College

Mrs. Jameson teaches health, eighth grade science and girls' physical education. In the picture above she has her "phys-ed" class doing acrobatics, while in the picture at the bottom of the page, she is teaching the rules of good health to a class of eighth grade girls.

MRS. BAKER
B.S. Kansas State Teachers'
College; M.A. Ball State
Teachers' College.

Mrs. Baker teaches home economics to high school girls, manages the cafeteria, and directs the 4-H club program. In these pictures you see a few scenes from her classes. In addition to her other duties, Mrs. Baker is a junior sponsor.

MRS. STOUFER
A.B. University of Wichita

Mrs. Stoufer teaches Latin, French and sophomore English. In the picture at the bottom of the page, her Latin I class is singing TE CANO PATRIA. To the right you see three seniors from the French class writing sentences on the board. In the picture below one section of English Ten is filing book reports into their cumulative folders. In addition to her teaching duties, Mrs. Stoufer is advisor to the yearbook staff and one of the sophomore sponsors.

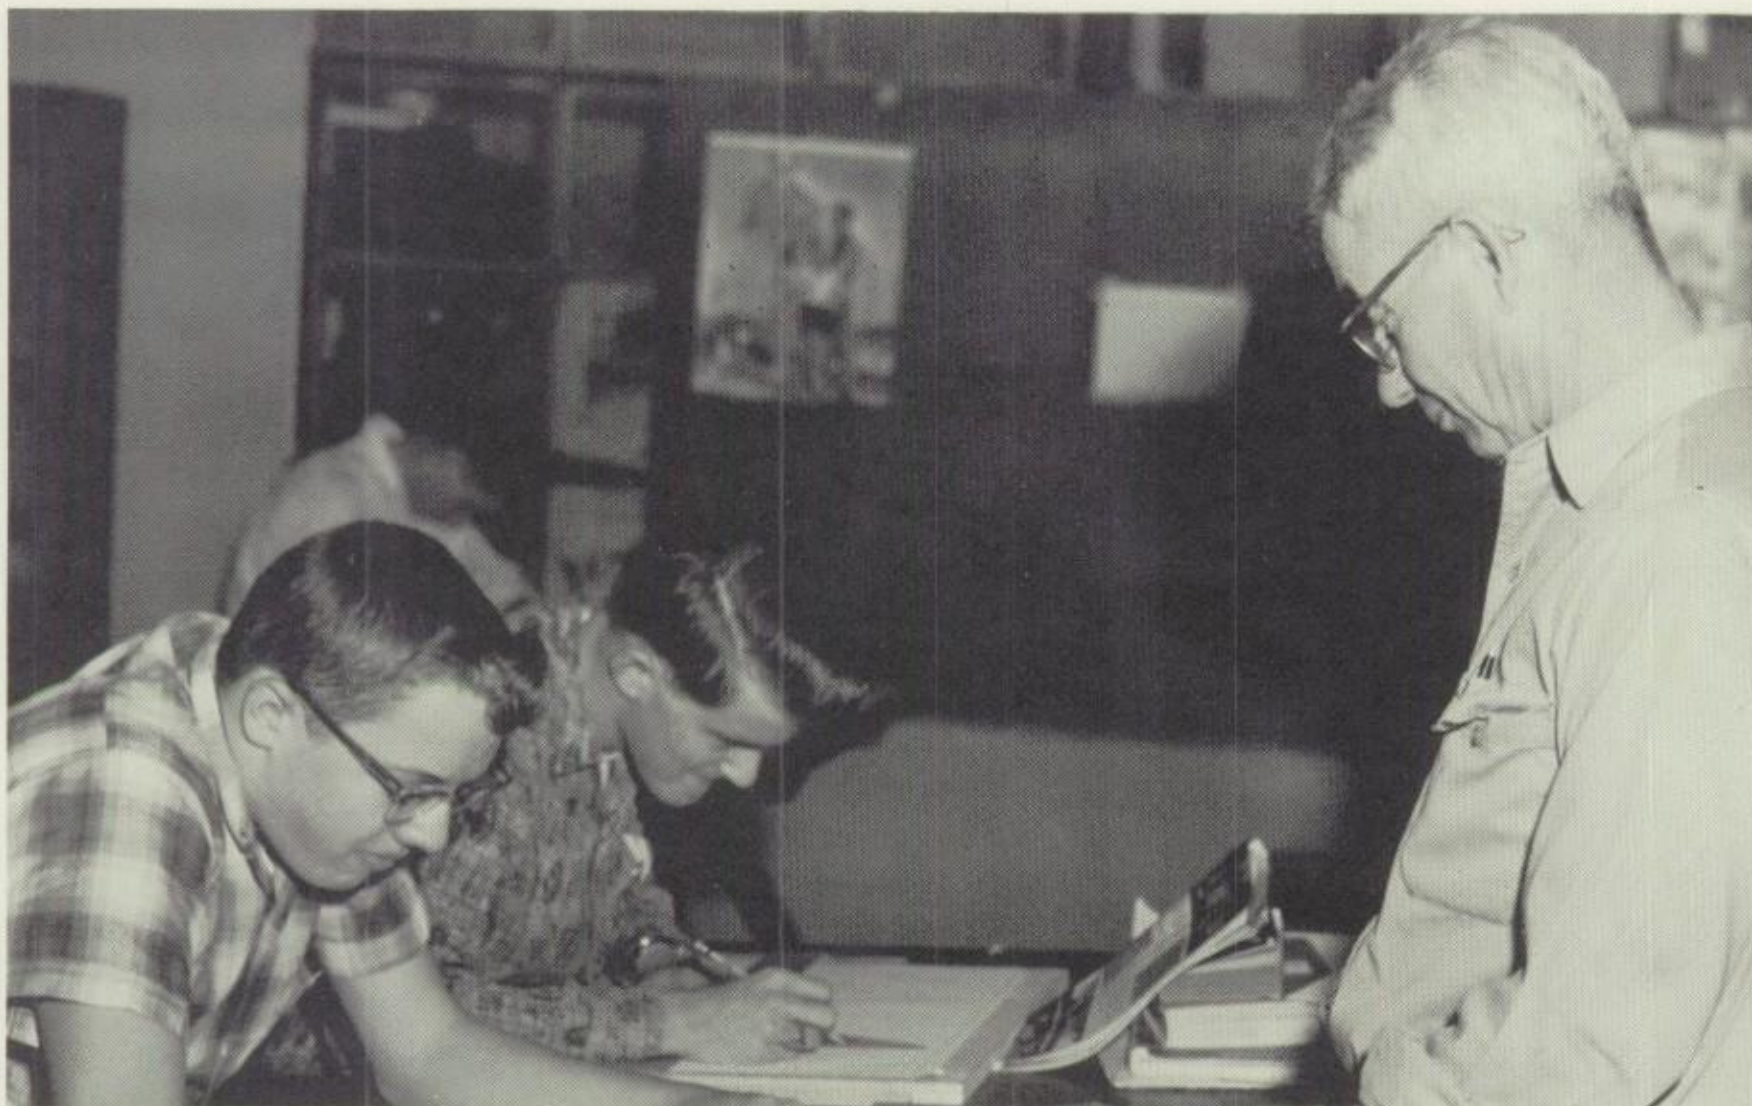

MR. VON JAMESON
B.S. Ball State Teachers' College

Mr. Jameson has been the coach of the hard fighting Cossacks for fifteen years. During these years, The Cossacks have won fame for M.H.S. He also teaches eighth grade and freshman health, and coaches track, and baseball. In the picture here you see Mr. Jameson standing proudly before a case of trophies "his boys" have won.

MR. MAIN
B.S. Ball State
Teachers' College

Mr. Main teaches mechanical drawing, wood shop, and machine shop. In these pictures you see him in his laboratory with some hard working students. Mr. Main is also a junior class sponsor.

MR. FLACK, B.S.
Northwestern University

Mr. Flack is the director of all the music in Middletown High School. He directs both the choir and the band, and in addition instructs an eighth grade choir. In these pictures you see him in a characteristic pose. The completion of the new wing gave Mr. Flack a much needed practice room.

MRS. ANGEL
A.B. Ball State
Teachers' College

Mrs. Angel came to Middletown this year from Illyria, Ohio. She is the school librarian. She teaches freshman English, and in the picture above she is handing back a theme to a pleased student. Mrs. Angel is also a co-sponsor of the sophomore class.

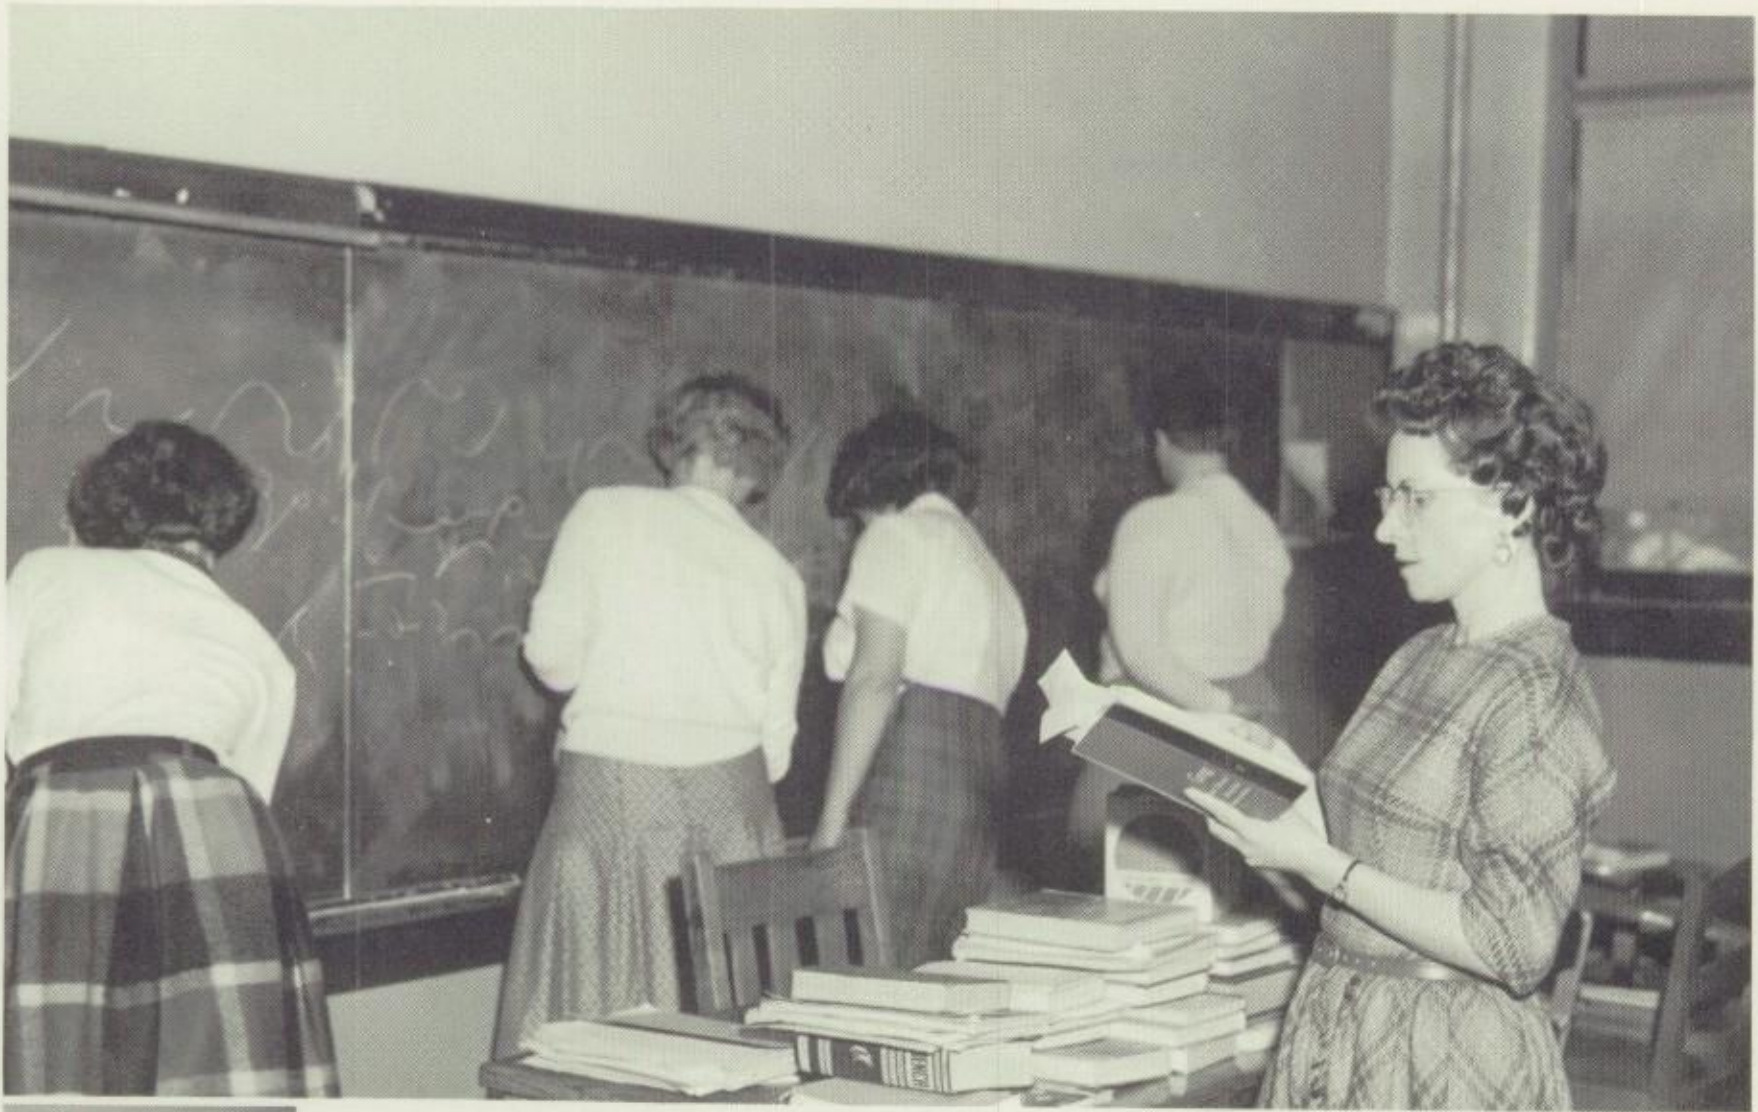

MRS. REEDY
A.B. Emmanuel Miss-
ionary College; M.A.
Ball State Teachers'
College

Mrs. Reedy teaches English to juniors and seniors. In the picture above she is discussing Shelley's poetry with a class of seniors, and in the picture below she is handing out magazines to furnish oral theme material in her junior class. Mrs. Reedy is the sponsor of the Middletown National Honor Society.

MRS. FRIEND
B.S. Ball State
Teachers' College

This is Mrs. Friend's first year of teaching at M.H.S. She teaches shorthand and under her capable direction classes, cover notebooks with strange-looking characters which they claim they can read and understand. She also teaches general business, and is a freshman homeroom teacher.

MR. CANNON
B.S. Colorado State
Teachers' College; M.A.
Missouri State College.

Mr. Cannon teaches chemistry, biology, physics and aeronautics. In the picture below he is instructing two freshman boys in the use of the microscope. The class at the right is probably concocting one of those evil smelling potions that drift from the "chem. lab." Mr. Cannon is one of the junior class sponsors, and is official ticket salesman for all Cossacks games.

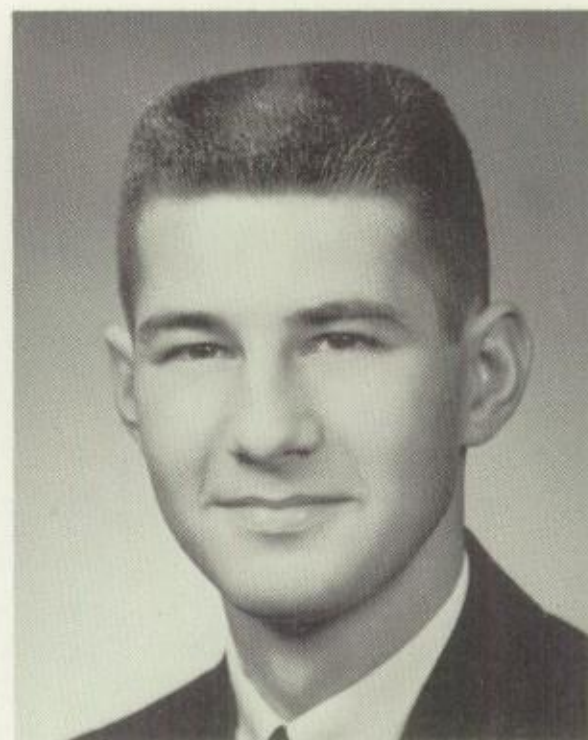

Here you see those indispensable people who keep the machinery of our schools running smoothly. At the top of the page are Mrs. Mary Ann Conn and Mrs. Irene St. John, managers of the offices at Fairfield and the high school. Mrs. St. John, a graduate nurse, is also the school nurse. Below are those two wonderful cooks Mrs. Fattie, and Mrs. Burr, and beside them Harl Bruce, custodian at the High School. At the bottom of the page are the bus drivers John Craig, "Ting" Hess, Loren Stanley, Bill Kirkpatrick, Howard Pullen. 2nd ROW-- Bob Sbshire, Vic Harry and Claude Gustin.

A GLANCE BACKWARD

The last twenty-two pages of this section have been devoted to pictures of grades one through seven. Most of the younger children attend Fairfield School, but this year it has been necessary to move one of the fourth grades to Central School.

Mrs. Shoemaker is the only teacher at Fairfield who has two grades in her room. She teaches both a small third grade and a small fourth grade.

Mrs. Ray teaches art and music to the pupils in Fairfield, and music to the students at Central.

To the Yearbook Staff, looking over these pictures of young children in the beginning grades, it seems a very short while since we, too, were first and second graders.
